

TIS Language Support Overview

To help applicants access information and participate fully in our program, we categorize our language support offerings as follows:

Type I Languages – Guaranteed Support

We guarantee language support for the following languages because they are spoken by our core faculty members.

[Arabic, Chinese, Czech, French, German, Portuguese, Russian, Spanish, and Turkish]

Type II Languages – Previously Supported, Expected Again

These languages have been supported in recent years through collaboration with campus partners. While we cannot guarantee availability in every cycle, we expect to continue offering support for these languages based on past experience.

[Italian, Japanese, and Korean]

Type III Languages – Possible but Not Guaranteed

These are languages in which we may be able to offer support depending on staffing and timing.

[Albanian, Ancient Greek, Hindi, Latin, Polish, Sanskrit, Slovak].

Disclaimer:

Please note that while we will make every effort to accommodate admissions interviews in Type II and Type III languages, we cannot guarantee their availability. Interview arrangements depend on staff availability and scheduling constraints.
